AMERICA'S MOST WANTED BODY PARTS

WE POLLED PLASTIC SURGEONS ON THE MOST REQUESTED CELEB FEATURES IN THEIR CITY

When it comes to designing a pretty new pout, Angelina Jolie's pillowy lips are the No. 1 choice nationwide, says LA plastic surgeon Dr. Robert Gordon, a.k.a. Dr. Lips. "But I have to advise women without the right facial framework not to force it. That's how you end up with

duck lips." For other body parts, celeb role models vary from city to city. In Miami, South American influences make rounder and fuller features desirable. In Chicago, hometown beauty Michelle Obama's well-toned backside is the gold standard. Here's who's hot from coast to coast.
